

Graduate Student Funding Report Guidelines

Instructions: Please submit a report to Heather Riden (heriden@ucdavis.edu) using the following format. Due dates listed below.

Student Name:

Graduate Group:

Project Title:

Advisor Name & Department:

Report Guidelines:

- I. Brief project description and its current status** (500 words for a scientific audience).
 - a. Emphasis should be on the project's agricultural health and safety components.
 - b. Include a list of any presentations given, publications, and/or funding sought/received.

- II. Blog post** (500 words for a lay audience/general public).
 - a. Blog posts can focus on the research project or reflect on experiences as a graduate student. Writing prompts that may be used include (but are not limited to):
 - i. How would you describe your research project to someone who isn't familiar with the field?
 - ii. What is your favorite part of conducting research? What is the hardest?
 - iii. How does your research relate to community efforts to improve agricultural health and safety?
 - b. Review our blog for ideas: <https://aghealth.ucdavis.edu/blog>. We have a scientific editor on staff who can assist with any questions (Suzette Smiley-Jewell, smsmiley@ucdavis.edu).

Other:

- a. Students are expected to attend the WCAHS seminar on the first Monday of the month at 4pm.
- b. All presentations, posters, and publications resulting from WCAHS funding must acknowledge WCAHS and NIOSH grant #2U54OH007550 and use the attached WCAHS logo when appropriate.
- c. Key dates are as follows:

Application Due Date

March 1, 2017

June 9, 2017

Quarter to be Funded

Spring 2017

Summer 2017

Report Due Date

July 30, 2017

September 15, 2017
